THE CHURCH FOR ALL.

ALL FOR THE CHURCH

Never has there lived a man who accomplished all he wanted to do . . . or went everywhere he meant to go.

Time and Distance like prison walls surround every life, ultimately frustrating man's hopes and dreams. We are told that science is finding ways to multiply time, to divide distance. A gadget can save you an hour. A jet will cut your journey in

But should the day come when man can live to 150, and a round-trip to the moon will be called "commuting" - we'll still be living within the same walls . . . time . . . distance . .

In fact, the only hopes of mankind which ever reach beyond these walls are our religious beliefs. In our churches we come to know the Eternal, the Everywhere. Faith dissolves frustration.

Life is more than a quest for speed . . . a conquest of space. Come to Church - and see!
